To whom it may concern,

Re: Scott Sargent

I have known Scott at SHS for 5 years now. In that time, he has provided us with the design, supply and installation of racking and shelving systems to our two warehouses in Rayleigh Essex, and more recently a racking inspection to our pallet racking and drive in systems.

I have always found Scott to be an honest, straight talking person who has provided us with a very detailed and efficient service. He has always been happy and available to help and advise on any projects or changes we have in mind.

His recent safety inspections provided us with comprehensive reports giving clear and understandable recommendations for our storage systems warehouse housekeeping and procedures.

With his advice and guidance our warehouse, storage systems and staff procedures remain compliant with current HSE regulations.

Scott remains responsible for our annual racking inspection. Should I have any further requirements for shelving or racking I would have no hesitation in offering him the opportunity to provide us with advice and quotations for work.

I would highly recommend Scott at SHS as he has a wealth of knowledge and experience across a wide range of products and services within the racking and shelving industry and I can find little fault with his friendly, helpful and honest approach to how he has dealt with me.

Yours faithfully,

Proteus Industrial Technologies Ltd
